Dear Valued Customer,

The following DS Offerings are approaching the end date of their current period. To renew these DS Offerings and/or their Support Services for the periods indicated below and subject to the terms and conditions of the agreement that currently applies to these DS Offerings, please prepare a purchase order referencing this Renewal Quotation (or you may simply sign this Renewal Quotation below) and return it to your Dassault Systèmes sales contact or the email address indicated below.

Installed Base Number	Version	Licensing Scheme	Short Ref	Product Name	Pricing Structure	Qty	Start Date	End Date	Net Unit Price for Period**	Net Annual Unit Price*	Total Net Price for Period**
LN00026823895	CST	Concurrent (Package)	S2K	CST Studio Suite Package	YLC	1	Apr 15 2020	Apr 14 2021	26,091.60	26,091.60	26,091.60

	Currency	Total Price Exclusive of Taxes
	USD \$	26,091.60

*The "Net Annual Unit Price" is the price for the standard period for ALC/ASC and YLC/YSC revenue types. In the event of revenue types whose standard period is not annual, this column will show the net unit price for the relevant standard period. For example, QSC licenses have a standard period of 3 months.
 ** The "Net Unit Price for Period" and "Total Price for Period" are respectively the unit and total price for the applicable period which, due to anniversary date or pre-ordered multiple period durations, could be greater or less than the standard period.

If VAT or other taxes apply, they will be added at the time of invoicing.

Unless otherwise agreed, the price for the DS Offering charges indicated above is the price of the previous year plus the last percentage of increase applicable to the license of a DS Offering in a given country, as published at <http://www.3ds.com/terms/price>. However, such increase shall not exceed the increase which would have resulted from the revision of the price of the license charges according to the applicable price index since the date of the last price increase published by DS at <http://www.3ds.com/terms/price> for the related DS Offering.

Should you have any questions or concerns, please contact your Dassault Systèmes Sales Representative ROBILLARD, John at John. ROBILLARD@3ds.com.

By signing or otherwise accepting this Renewal Quotation, Customer acknowledges and agrees that the DS Offerings and/or their Support Services indicated above will be renewed for the periods and the charges indicated above and subject to the terms and conditions of the agreement that currently applies between Customer and DS.

Sincerely,
 Dassault Systèmes
