

# Issues

- Solenoids: will our solenoids adequately focus 350kV beam?
- 15 degree bend? More coils?
- Wien filter? Reduce gun voltage and install a 100kV mott?
- A3 and A4?
- Waist inside 1/4CM?
- Buncher design? Duplicate FEL buncher?
- Viewers, where?
- Corrector magnets, one pair in front of each solenoid + as many others as we can afford
- BPMS
