**Neutral Particule Spectrometer** 

#### STATUS OF THE PCB, CABLES AND OTHERS

Meeting February 03rd to 05th 2020

ThI NGUYEN TRUNG

## <sup>></sup>Neutral Particule Spectrometer

#### PCB n° a282A : Interface Bases <- -> HV-A-LED Board

- Received 30 pieces

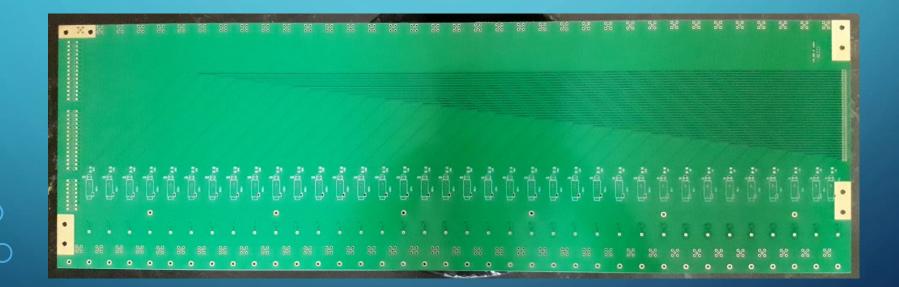

PCB n° a282A : Interface Bases <- -> HV-A-LED Board

ORSAY

- Ready to enter the oven at +70°C during 24h00

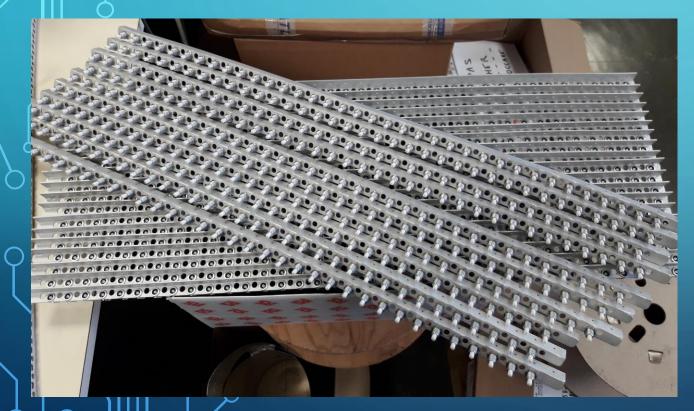

# INSTITUT DE PHYSIQUE NUCLÉAIRE

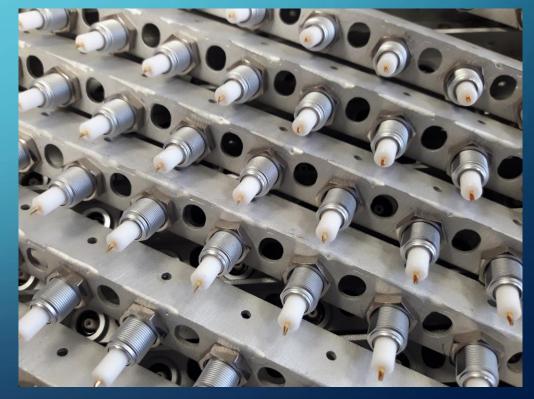

PCB n° a282A : Interface Bases <- -> HV-A-LED Board

- Mounting of 1080 FISCHER CONNECTORS on Aluminum support

ORSAY

## Neutral Particule Spectrometer

#### SAMTEC HV Cables

- all are received

Thi NGUYEN TRUNG

 $2 \times 8$  points

## <sup>•</sup>Neutral Particule Spectrometer

#### **SAMTEC HV Cables**

Special tool for testing the continuity of each wire in each cable

#### Thi NGUYEN TRUNG

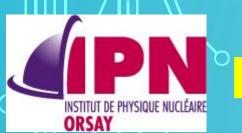

### **SAMTEC HV Cables**

INSTITUT DE PHYSIQUE NUCLÉAIRE ORSAY

Tool for testing the High Voltage on each cable.

0

### <sup>°</sup>Neutral Particule Spectrometer

#### Anode cables

- We are waiting for the LEMO connectors
- 700 cables will be manufactured in the SYSTECH company
- 452 cables will be manufactured by Laboratoire de Physique de Clermont (LPC)
  - SMA side already done

#### LED cables

- 40 flat cables received
- Tool for testing the cable in progress

#### **Others**

- Transformer 220V 110V (for Chiller) received
- Acquisition Unit (Temperature sensors) and Thermocouples received
