

Update on Spring 2023 Data

- Run period from Jan 12-Mar 20, 2023
- Nudge begins when pitch or yaw is changed and ends when angle and current are steady
- Require diamond to be on beam
- Total of 295 nudge events
- Majority of the nudges occur when the beam is down
 - In such cases, I hold onto the value of the edge position, etc. from before the beam went down

Example Nudge on 01/23/2023

Example Nudge on 01/25/2023
