Managing and Operating the U.S. Department of Energy's

**Jefferson Lab**

Thomas Jefferson National Accelerator Facility

November 17, 2016

Eric Voutier  
CNRS/IN2P3/IPNO

Dear Eric:

The owners of Jefferson Science Associates (JSA) have approved the recommendations of the evaluation committee to award funds for projects in the FY2017 JSA Initiatives Fund Program and it includes \$4,000 to support the *International Workshop on Positron Physics at Jefferson Lab (JPos17)*

SURA, the Administrative Member for JSA, manages the Initiatives Fund Program for the JSA Programs Committee. Funds for your project will be available following the mandatory evaluation debriefing. Please contact IF program manager Elizabeth Lawson (elawson@sura.org) to arrange for the debrief.

On behalf of the JSA Programs Committee, I congratulate you on your successful submission and trust that the JSA support will contribute to this important and relevant workshop.

Sincerely,

David S. Armstrong  
Chancellor Professor of Physics, College of William & Mary  
Chair, 2017 JSA Initiatives Fund Evaluation Committee
