

V1495ClockCounter in Buffered Mode

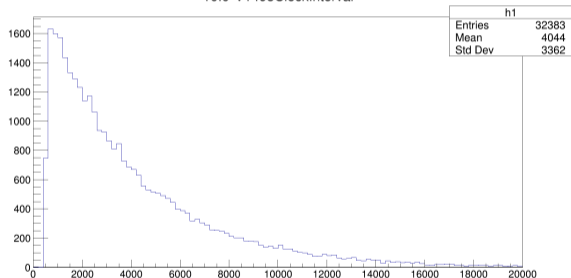

Evan McClellan

August 16, 2018

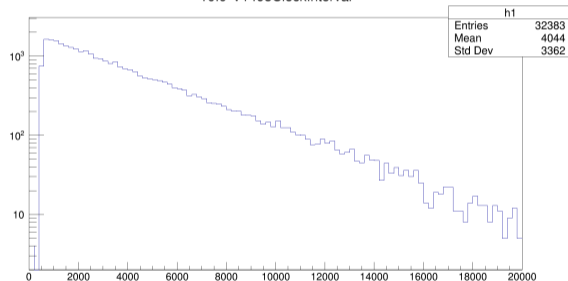

- V1495ClockCounter records *Readout Time*
- In Buffered Mode:
 - ▶ V1495ClockInterval equals readout deadtime for all 'buffered' events
 - ▶ $\approx 100\mu s$

V1495ClockInterval in Unbuffered Mode

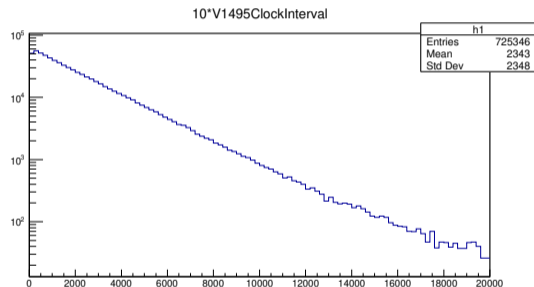

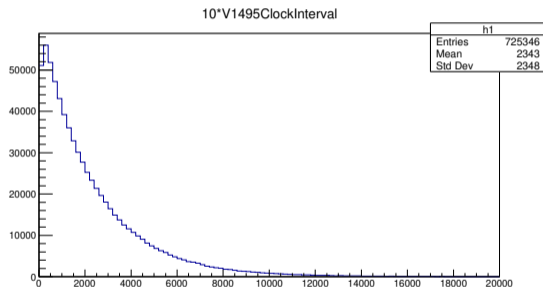

10.0*V1495ClockInterval

10.0*V1495ClockInterval
