

L/T update

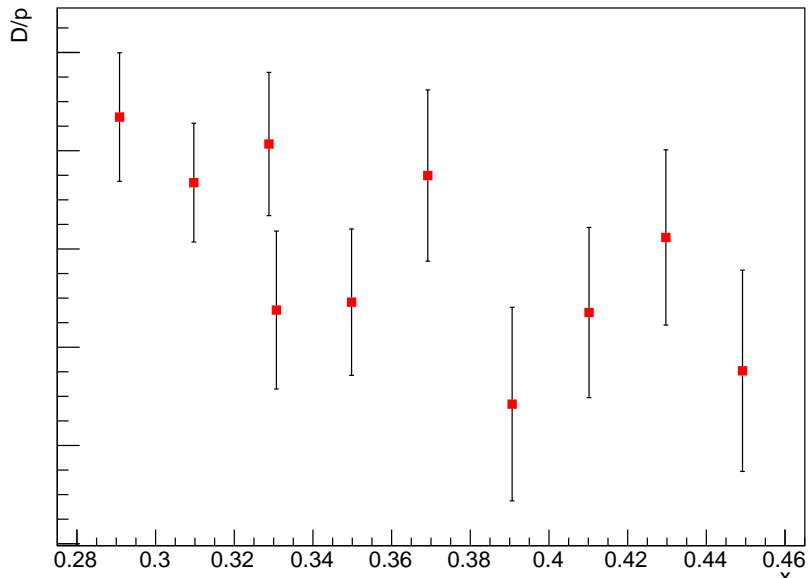

Tyler Kutz

January 31, 2019

Data replay

- Replayed with master (x>1/SRC) branch of tritium replay
 - Minor changes to `odef` files
- Used MARATHON database
 - Seems dangerous to use different databases...any reason to?
- Stored in `/cache/halla/triton/prod/marathon/LT/`
 - Separate directory (LT1, LT2, LT3) for each kinematic point

D/p ratio vs. x_{Bj}

D/p ratio vs. ϵ
